

FEDERAL MINISTRY OF INNOVATION, SCIENCE AND
TECHNOLOGY (FMIST)

STAFF DISTRIBUTION SUMMARY REPORT

OVERVIEW

The Federal Ministry of Innovation, Science and Technology (FMIST) plays a pivotal role in promoting scientific research, innovation, and technological advancement across Nigeria.

Based on the nominal roll dataset analyzed through Power BI as of **September 2025**, the ministry maintains a total workforce of **579 officers**, distributed across multiple departments and locations.

KEY HIGHLIGHTS

- **Abuja (Headquarters)** remains the major operational base, housing **552 officers**, which represents **95%** of the total workforce.
- **2 staff** are officially recorded as being on **study leave**, while **25 records** are marked as **Unknown**, likely due to incomplete location data in the nominal roll.
- The ministry operates through **over 20 departments**, reflecting a broad administrative and technical structure.

CONCLUSION

The Federal Ministry of Innovation, Science and Technology maintains a predominantly centralized workforce structure in Abuja, with minimal dispersion across external locations.

The distribution pattern suggests an administrative-heavy organization, supported by several technical units driving innovation and research policy.

The dataset also indicates a small margin of incomplete entries under “Unknown,” which should be reviewed for data completeness.
